

## *Messy night at the rave*

By Thatfriendlyguy

Residing inside of her house, a blue Pegasus that went by the name of Cobalt, was casually lying around on her bed. Browsing on her computer on what was an average day for her. Having a day off from work, and not having to worry about doing any errands, she was browsing around on GutHub. Looking to be eaten by someone, it had been a bit since the last time she got to enjoy being gurgled away inside of someone's body. With the last time she can remember, being the arcanine she had the pleasure of being fucked with. Though that was about a week ago, and she was looking for someone that could give her the pleasure of being eaten alive. Browsing around at the endless list of offers in front of her, they all ranging in specials on what they offer, it was hard to choose what she's feeling up to. With most of them not looking to be peaking her interest, a bit of scrolling would reveal none that looked to satisfying. Getting ready to possibly give up the search, an advertisement looked to have caught her eye.

.

It showed a picture of what looked to be a zebra-griff. Looking to be a mixture of a zebra and griffon, their upper-half looked to have a mostly zebra-like look to it. While their lower-half had their front legs contains claws, whilst their hind legs had hoofs instead. Besides that, the zebra-griff was surrounded by a series of used diapers in the background. All used presumably by them. Wearing a diaper themselves, it looked to have carried a heavy taint of yellow to it. Wetting themselves, with what looked to be a massive bulge just above. Right beside their face, some text could have been read. 'Wanna ride?' with his face giving a seductive look into the camera. Within his hand, he looked to be holding onto some rope. Looking to have already had it wrapped around at his chest, it did give a sight of a possible fun time with the zebra-griff. Promising of some lewds, before being dumped inside of a diaper, how could Cobalt possibly resist? Instantly clicking down upon the offer, she was listed the location as being near the forest close by. Seemingly only having to take a walk, it would perhaps only take a few minutes to get there! With an eager grin on her face, she quickly clicked on the sign-up button. Alerting the zebra-griff of her visit soon, and letting him be prepared in advance. "Hehe, well this should certainly be fun~ Hope he's a tease~!" Turning her computer off for now, she quickly rushed her way out the door. Locking it behind her, before starting to walk off towards the forest close by. All too curious to see how he'll be eating her alive. Whether it be through their rear end, or slipping down the gullet, she was more than eager to meet the zebra-griff~

.

Taking what felt like a few minutes, of traveling, Cobalt would eventually find herself wandering through the nearby forest. Having to take only a few minutes, before she would have been greeted to the very sight that was promised in the ad. A sight of what looked to be a bunch of diapers lingering amongst the place. Used and tossed into a giant heap, with the smell of shit being smelled from close by. Only helping to signal that this was the place, would have been the zebra-griff himself! Looking to have been resting near some diaper, he looked to be engulfing the

last bit of a pony into his ass. Revealing only their hind legs, before they were firmly tucked away inside of the hybrid's behind. "Aaah, there we go~ Having you tucked away inside of my rear end. I'm going to enjoy shitting you out in just a bit~" Chuckling to himself, he was going to put on a fresh diaper nearby. Neatly putting it upon his body, he wouldn't been aware of the latest visitor that was currently watching from the sidelines. As for the pony that was currently tucked away in the bowels, they would have been clearly visible as a bulge upon the zebragriff's body. Helping it stand out amongst their lower-half, as the meal was making its way into the awaiting depths. It was enough to have Cobalt already being slightly aroused from the scene in front of her. A spike of lust hitting her body, and a desire to be with the hybrid. It helped they were looking to be around six feet in height. Two feet taller than she was, and most likely able to have his way with her. With nobody else looking to be nearby, it didn't seem like too bad of an idea to possibly go out and finally interact with the hybrid...

.  
Biting her lip in anticipation, it wouldn't have been long till she'd make herself being known to the hybrid. Stepping away from the trees she was watching from, she proceeded to make her way towards him. Hoofs crunching down at the surrounding fallen leaves, helping to alert the zebragriff of her whereabouts. Having him instantly lifted his head up, it didn't take long for his eyes to instantly fall down upon her. "Oh, well hello there~ You must be Cobalt, correct~? Guessing you like what you see~?" Abruptly flopping himself onto his back, he went into a position similar to that of the advertisement. Showing off his attractive body to her, and revealing the member that was currently bulging through the diaper. Showing off to the Pegasus, and revealing the arousal that he was currently going through. Most likely caused by the pony currently in the process of being digested away already. He looked to be missing the restraints, or perhaps they were behind the diapers, ready to be put on. Not that it mattered much to Cobalt, as she was all too eager to be eaten alive by the zebragriff. "Hehe, well yes, I suppose so~ Though are you only going to be showing off? Or are you going to give me a good fucking before I'm eaten?" Sounding a bit self-centered in her tone, it was mainly a trick she did to her predators. Loving it when they would take control of the situation, and dominate her submissive ass. And it looked to be somewhat working with the zebragriff! With his lewd and playful expression, turning into a mischievous grin. Already knowing how this was going to be ending up. "Oh? Is someone playing hard to get now~. Heh, you're going to have to try harder than that! You look like diaper-filler that's just waiting to be dumped~. That's why you're here, isn't it? To be dumped out like the pile of crap that you truly are~."

.  
The little bit of degradation, was already starting to have an effect on her. Not being the strongest to keep up much of a façade, the humiliating words were already edging her into a submissive state. Willing to do whatever he might, but not going to fully submit just yet. Letting out an audible huff upon the remark, she dared to take a few steps towards him. Daring to close the distance between the two of them. "How r-rude of you to not get me what I want. I signed-up to be eaten alive, not be taunted by someone about what I desire. P-Perhaps you're better off filling diapers, than you are eating others~" Attempting to possibly fight back against the hybrid's

words, it didn't seem to work in the slightest! Having him simply laughing off at her remarks, he did go to lightly fixing his diaper. Lightly moving it against his hips, to ensure that the diaper was firmly snugged onto his body. "Heh, so much talk for someone that's about to be filling a diaper soon~" Getting up onto all fours, the zebragriff stood proud and tall in front of the Pegasus! Diaper swaying around right behind him, as he showed his body off to her. "I, Cairbre, will be reducing your puny little body into a nice load of shit, after I finish fucking you in the cunt first! I'll be making you a giant load of crap in my intestines, just like this pony I have digesting away inside of my intestines~" Turning around, to face away from the Pegasus, it had his rear being lifted into the air. Exposing at the plush diaper that looked to have rainbows being decorated on top of it. Looking to be completely clean during this time, though that was going to change once he comes to disposing of his current meal. "I'll be making sure you fill my next diaper, after I finish emptying this pony into this one~ It's your fate, and there's certainly no way you're going to change it~"

Being more than happy to toy around with the Pegasus, he didn't expect the pony inside to be suddenly squirming around within the intestinal track. Struggling to possibly escape, but it only led to the pleasure helping to stimulate the hybrid's body. Evoking a loud moan out of Cairbre's lips, with him trying to clench down upon the anal intruder. "W-What do you think you're doing in t-there! You're going to become a fresh dump, there's no escaping from your fate~!" Shouting out to the lower bulge lingering in his bowels, it was accompanied by him kneading down into the bulge. Hoping to quicken up the digestion process, and bring an end to the constant movement. Yet, as much as he was determined to finish the pony off, the latest meal looked to have been struggling to the best of their ability! Too determined to possibly be dumped into a diaper. "I c-change my mind! I don't want to end up in a d-diaper! This isn't what I had in mind!" The voice sounding somewhat feminine inside of the rear end, with the bowels continuing to slosh and shake about within the tight interior. Determined not to give in so easily! However, with the digestion process having already been a good portion of the way through, it wouldn't have been long till they would finally bite the dust. Bringing their once mighty struggle to rest within the span of a few minutes. Going from the heaviest of shoves, to barely a squirm within the intestines. Before eventual silence would follow, with Cairbre taking in a few deep breaths after forcing his intestines to finish the job. Drastically reducing his meal, and leaving only the pile of crap that was lingering inside. "Huff... Now then... what was I saying again...?" Looking to have been temporarily lost for a moment, before his attention was brought over towards his diapered bottom. Remembering that he still had yet to wear the diaper. "Ah yes, of course~ If you do accept this fate, I'll be making sure you'll end up just like how this pony did~ Once you get out of my ass, there's no escape from there. You'll be processed, and eventually pushed out of my ass. Just like I'm about to show with this latest meal of mine~"

Without waiting for Cobalt to give a response, Cairbre already went to emptying himself in front of the Pegasus. Letting the diaper being on full despair as he did it, with his body instinctively pushing its latest load out of his rear end. Having it coming out in swift clumps, they were

quickly being dumped into the awaiting diaper. Having a lump starting to appear upon the diaper, the once white-texture would have been quickly changing to a darker-brown. Having it growing darker with each passing second, it was accompanied by the loud 'Aaaah~' from the zebragriff. Taking clear enjoyment out of emptying himself, with the diaper starting to sag with the crap being stuffed inside of it. "And that's the stuff~ This is what you'll be doing once my ass has reduced you into its next bowel movement~ It's where a shitty Pegasus like yourself belongs. Acting as a nice filler for the next diaper I have to fill~" Trying his best to try and dominate the Pegasus, Cairbre wasn't the best at being dom. In fact, he was still a newbie when it comes to dominating someone. Not as good as his friend Data Rain, but he will get to that skill in due time! With what he had now, it looked to have been doing just the trick. As Cobalt was having a hard time being able to hold still. Legs shaking around in excitement, as she watched the darkening diaper in front of her. With the degrading words, and teasing her about being crap that was going to be dumped into a diaper, it had her heavily aroused at the idea. Staring with a gaping maw, as she was able to even see a few small bones prodding through the diaper! Being all that remained of a simply pony, now just a load of crap. How exciting~

.

With the shit continuing to push itself out of the zebragriff's rear end, it would have been easily stuffing the diaper. Leaving it to be filled silly with the remains of his previous prey, there were a few notable bulges that lingered within the slimy depths. Being that of the pony's skeletal remains, a few bones could have been poking around at the sides. Stretching the diaper out a bit, while the faint traces of the pony's skull could be seen near the top. Lightly indenting the nearby fabric, and showing the horrified expression of a pony who had second thoughts about being turned into shit. "Aaah, there we go~ All of that ex-pony is out of my ass! You'll be entering my rear end soon, and suffer the same fate as them~ Final warning my bratty little snack, before you'll be living in my diaper for the rest of the day~" Offering one more chance to possibly back away, as he was shaking his used diaper. Leading to it sagging around with every move he made, with it clearly being used by the hybrid just recently. Acting as one giant tease to the Pegasus, it was getting underneath her fur. Unable to possibly think of any snarky remarks that could go with it, she'd whine out to Cairbre. Revealing her more subby nature to him, with her barely taking a few steps closer towards the bloated diaper. "I want a r-ride first! I want to be f-filled in my ass, b-before you churn me away...~" There was clear excitement in her tone, as she couldn't deny how eager she was to be used by the hybrid. Her nether regions having been soaked from watching the dump, she knew it was going to be equally as pleasurable to become a part of such a massive release. However, she wanted to enjoy riding on that cock she's been teased by since she laid eyes on that advertisement originally. Seeing it directly in front of her, she couldn't resist desiring to ride the shitty rod~

.

"Aaah, a bit of fun before I transform you into my shit~ That's perfectly fine by me! I know I'll certainly have some fun making sure to stuff you silly with my spunk~ You better get to presenting yourself, because I'm going to enjoy pounding into your ass~" Hearing the news, it wasn't long till Cairbre went to undoing his diaper in front of her. Managing to do it swiftly and

within a few seconds, as it wasn't all that hard to get the diaper off. Especially after having done this countless amount of times already today, this one was no exception. Letting it come crashing down onto the ground, the diaper would sag open. Revealing what looked to be a bunch of zebragriff manure lingering inside. Along with what looked to be a few bones being visible within the shit, with what looked to be the skull resting on the top of the mess. Heavily coated in crap, with the waste looking to have been filling the pony's eye sockets. With the mess being fully visible for the two to see, it did have Cairbre stopping to admire at the mess he made within the diaper. Admiring just how well his body was able to transform a simple pony, into his latest bowel movement. "Hehe, and that was only what, less than a minute being in there~! Think of how well your body will be broken down, once I finish fucking you in the ass~" Turning to look over towards his next meal, he'd come to see that she didn't seem to have moved from her spot. Standing proud and tall in the same spot that she was, it didn't look like she was ready to be fucked. It did confuse him at first, with his head being tilted to the side. "What's the matter my little snack? Don't you want to be fucked in the ass so I can quickly stuff you up my ass? Or are you being stubborn again~? Whatever it is, I'll still be making sure that ass of yours is filled~"

.

However, she still remained at her stance! Refusing to leave it any time soon, she gave a mischievous grin to the hybrid. "W-Why don't you make me? I thought you were the d-dominant one here~" Trying to position herself in a spot that she'll be abused, she stood up in defiance towards Cairbre! Refusing to move from her spot, as she made sure he'd have to take control of her. "If you want a-access to my ass... You got to get it yourself~" Shaking her rear end to go with, she had her eyes being focused upon the equine shaft in front of her. Being able to witness the cock in its fully erect state, it was clear the hybrid was excited upon the idea of mating with her behind. Being currently rejected from any excitement towards one of her sensitive areas, she was answered with what was a loud huff from the hybrid. "Heh... playing hard to get, huh? Well no matter, I don't need this bratty bitch to be willing when I fuck your ass. If anything, you just made it a bit more interesting than before~" Getting into an attacking position, Cairbre would have been prepping himself to leap over towards the Pegasus. Taking his time to set up, while he kept his eyes on Cobalt. Watching as she didn't move in the slightest from her spot. Still standing firm and tall, even though her legs were heavily shaking in anticipation. Knowing what was about to happen to her, she was more than ready to embrace the life of being used by the zebragriff. With it being clearly visible from her body movement, she was begging for him to take the lead at this point. To which he fully understood, and was going to have the pleasure of toying around with yet another meal. "I'll be making you regret trying to defy me, or perhaps I won't. After all, it's clear how much you want to be treated like my little bitch before my ass eats you alive~"

.

No longer wasting any time, Cairbre suddenly lunged himself towards the Pegasus! Aiming towards their chest with open claws, it wasn't long till the two would finally collide into one another! Forcefully pushing Cobalt onto her back, knocking the wind out of her as she was forced to the ground. Brought into a small daze, with no possibility to fight back against her

current attacker. Defenseless to his advances, it made it easier for the zebragriff to be getting on top of his prize. “Stupid meal~ Trying to fight back against your predator? Surely you must have known this was how it was going to end~” Chuckling to himself, he went to rubbing his cock against the Pegasus’ body. Stroking against the blue flesh, as he originally came up to the needy nether lips up ahead. Though with it not being the hole he was looking for, it had the equine tip to brush against the wet folds. Dragging them down towards the Pegasus’ back entrance, it wasn’t long till the shaft pushed itself against the puckered hole. Not slipping inside just yet, with the tip being pushed up against the awaiting cock tip. Not that it wasn’t stopping the rear from already anticipating the forceful entry. With the back entrance already clenching itself against the intruding member, it was trying to drag the member into the awaiting depths. However, it failed just short of such, with there barely being much for the ass to grasp a hold of! Though it didn’t stop an audible laugh that came to slip past Cairbre’s lips. Already being able to tell just how ready she was to be fucked in the ass. “Well aren’t you quite the needy slut~ Already trying to engulf my shaft, and I haven’t even stuffed it inside of you yet! No matter, you’ll be getting it in due time~”

.

After making sure that the cock was perfectly aligned with the shaft, Cairbre thrusts his way into the awaiting bowels! Forcefully slamming the massive member into the hot and slimy depths of the rear end. Grinding down against the slimy interior of the walls, and daring to venture as far as it could with a single shaft. Evoking a loud moan from Cobalt from the forceful entry, with her ass quickly clenching down upon the invading shaft, the anal walls squeezed down upon the equine member. Holding onto it as tightly as the lining could, with the walls smearing the member in a heavy amount of anal fluids. Helping to lubricate the shaft on its journey further into the tight depths, though there was a surprising lack of crap within the Pegasus’ behind. Making it easier to pound away at the bowels to move of his enjoyment. “Quite the tight one back here! Suppose it’ll make it easier to fill your ass once I get going~” Having already gotten the first thrust in, he went to pulling back out a small bit. Being greeted with resistance that came from Cobalt’s behind. Having the walls still be tightly clinging onto his member, they were refusing to let him go too easily. Thankfully for him, he was able to overpower the clenching lining. Dragging the shaft a bit further out of the anal passageway, and evoking a soft whine out of the Pegasus. Acting needy that he was pulling out, it elicited an audible chuckle out of the zebragriff. “Such a whiny little bitch~ Well you’ll be getting what you want soon enough, don’t you worry! I won’t be fully leaving this ass of yours, till I have it filled with my spunk~” Pulling out just a few more inches, before abruptly slamming back into the anal passageway. Forcing the cock further than it was before.

.

Bringing the equine shaft deeper into the tight interior, Cobalt cried out as her body was being penetrated by the shaft! Weakly squirming around against the invading member, she was whining out from the harsh entrance inside. Even with the cock having been already somewhat-lubricated within her anal fluids, the sensation was still incredibly rough on her behind. Forcing her to take in the meaty member, and feel it digging into her lining. Bringing with it a stinging

sensation of pain, but it was overlooked by the constant waves of ecstasy that quickly made up for it. Easily overtaking the pain in intensity, with her mind being in a sheer blissful state! Feeling like she could reach her orgasm at any moment, she tried her best to hold back on it. To try and suppress this pleasuring sensation that was surging through her body. However, it was proving to be incredibly difficult for her. Made only worse by the fact she was being taken advantage of by the zebragriff. Let at the mercy of the hybrid's actions, as they went in for another quick buck of the hips. "I'm a-already feeling close as it is. Hope you're ready for your filling morsel, before I make a butt snack out of you~" Promising of a messy demise after he was done using her, it had easily broken through Cobalt's façade. Ridding herself of the snarky behavior, and now ready to do whatever he might come from her predator. Heavily huffing from the sheer ecstasy she was in; her tongue was lolling out of her mouth. Making a mess out of her mouth, but nothing mattered at the moment. Other than to sit back, relax, and enjoy the pleasurable fucking she felt in her rear end~

.

The two would have been continuing on with their lewd mating. With Cairbre being the one in control for the most part, he had been continuously pumping his cock into Cobalt's rear end. Forcefully slamming the hot rod against the sensitive lining, as it tried to push itself further inside with each buck. Failing to do so after a point, it did lead to the cock oozing out a heavy amount of pre from the tip. Helping to further lubricate the anal passageway, easing down on the small bit of pain that still lingered, but by then she had already grown numb to the sensation. With the waves of constant thrusting, she barely holding on. Feeling her body screaming for that blissful orgasm, she was trying to have this moment lasting on for as long as she could! Yet this task was already impossible, and she was starting to realize it. With each buck of the hips getting harder into her rear, it was accompanied by the audible grunts that came from Cairbre. Having been closing in on his climax, it wasn't going to be too long till he'd climax... "Hehe, trying to hold, back are we? Well that's a shame, I'm going to have to hold back on you now~ I'm certainly not going to finish before you, I'll make sure you're the first to finish~ Now you can either stop resisting and let it come out already, or I'll have to break it out of you~ Either or fine with me~" Promising either or would happen, Cairbre wasn't too sure of it. With his climax already just a few more thrusts away from happening, he was trying his best not to finish early. To keep his dominant state, and have the grand pleasure of finishing after her. However, with his cock heavily throbbing, and the pleasure easily getting to him, it was a race against time. Trying to see who can hold in their climax, while the other finally gives in to the satisfying lust~

.

Within a few more thrusts, it wouldn't have been long till Cobalt would give into the ecstasy. Unable to hold back any longer, she'd cry out one last time into the open air! Clenching down as tightly as she could upon the invading member, before letting her orgasm finally be released. Rushing its way out of the vaginal passageway, it came crashing down upon Cairbre's crotch. Smearing the fur in the clear-fluids, and having the air reek heavily of sex. With her body going limp soon afterwards, she was worn out from everything that her body had been put through. Leaving her within the grasp of the zebragriff, it wasn't long till his climax would be working its

way out. Having been incredibly close to his own peak, it was a sweet relief that the Pegasus would have reached her climax first. With the walls clenching down onto his shaft, it would be all he needed to be pushed over the edge. Letting out a gryphon-like cry, his load came rushing into the Pegasus' behind! Heavily smearing the interior anal walls with the white spunk, as it rushed its way through the tight interior. Rushing its way throughout the first intestinal bend of the small intestines, and working its way deeper into the slimy bowels. Sending a wave of sheer ecstasy for both, with the two of them being in a state of complete bliss! Unable to possibly do much, with the cock being firmly lodged within the rear end. Cum being shot out in each thick rope, helping to be stuffing the rear full of baby batter. In return for it though, Cairbre would have been feeling his body quickly growing limp from the excess energy he had used. Having given his all to dominate the Pegasus, it had him now lying on top of her body. Squishing her to the ground, while his load continued to be emptying itself out for a bit longer. Giving the two some time to bask in the wonderful afterglow of their peaks~

.

After a few minutes of relaxing, the hybrid's load would have been finally coming to an end. Having given the two some time to relax afterwards, Cairbre would have been the first to pull away from Cobalt. Working his cock out of her rear, it would have made a wet plop as it was pulled out. Leading to a small bit of cum starting to ooze out of the rear. Revealing at the wonderful time that lingered inside, yet also wasting some of his cum! "Oh no you don't! I filled your ass, and I'm going to be making sure you keep all of that within you! At least until I get you churned away inside of my ass~" Looking around quickly for what he could possibly use to possibly stop the leaking behind, he'd be able to catch a glimpse of his latest diaper. Still containing the leftover remains of that unlucky pony, it was within grasping reach if he leaned into it. 'Perfect~' He mumbled under his breath, before leaning over towards the filled-diaper. Grabbing it with his talons, he dragged it over towards the Pegasus. Already going to putting it upon her hind legs, as there wasn't any word that came from Cobalt. Looking to have still been in a blissful afterglow, she didn't fight back when the diaper was being pushed around. Though once she felt the shitty remains brushing against her legs, was she starting to break out of the sweet sensation. Though it was far too late for that, with the diaper being properly put up to her hips! Having the hybrid now starting to tighten its grasp upon her body, she was able to feel the surrounding bones brushing against her fur. Lightly scratching against her fur, but it wasn't able to much to pierce the layers of crap that was being smeared upon her hind legs. Wearing the filthy remains of a pony, with their skull being pushed up against her pucker! Ensuring no more spunk would be oozing itself out of the gaping ass.

.

"There we go! Now that I have that on your butt, I think I can finally get to consuming you with mine! Do hope you enjoy yourself, because I'm going to enjoy turning you into my next load of crap~" Taking a moment to appreciate his work, Cairbre was able to see that the diaper looked to have consumed majority of Cobalt's hind legs. With the two having a two-foot height difference, it made it look like the diaper was a puffy pair of pants for the Pegasus. With them just barely missing out on engulfing her hoofs, the diaper was resting on the diaper. Having its

currently owner too tired to possibly move, she'd offer an audible groan to the zebra-griff. With the anal fucking looking to have already wore her out, it did make it incredibly easy to consume her without many issues. Having to work himself on which way he would be consuming them, the head seemed like probably the best option. "Hehe, well hope you had your fun being fucked, but I think it's time you churned into shit~ I'll be giving you one wonderful view while you're sinking inside, so at least you got that going for you~" Walking in front of Cobalt's face, it wasn't long afterwards till he'd squat down upon his hind legs. Lowering his ass down towards the Pegasus, with his tail being lifted into the air. Making it easier for his pucker to be visible, as it was starting to gape open. Looking to have been anticipating her entry inside of the rear end, she was greeted to what looked to be a clean rear end from within. Having been cleaned just recently, she was spared having to worry about being shoved inside a dirty ass. Though she was going to be making it dirty once the shitty transformation took a hold of her body. "I think I've done enough talking, I shouldn't be giving my meal that much attention. Especially when they should be in my ass!"

.

Forcefully slamming his ass down upon Cobalt's head, it was being pushed directly into the anal passageway! Managing to be taking her entire head inside, she was able to watch on as the pucker swiftly spread itself over her ass. Having done this out of instinct, after doing this for who knows how long. Tucked away within the hot and slimy interior, and having the walls be instantly clinging onto her. Granting very little room to move around, and certainly having no way to escape. With the sphincter sealing itself around her neck, refusing to budge from their current spot. Ensuring she went nowhere else, besides further into the hybrid's awaiting bowels. "O-Oh stars yes~! That's what I love to feel from my prey~! Hold still while my ass gobbles the rest of your body, I can't wait till I have you fully tucked away in there. I'm sure you'll make for a big load in one of my diapers~" Huffing out from the wonderful sensation, it did have Cairbre stopping for a moment. Letting his ass be tightly clinging onto Cobalt's face for a moment, before beginning to drag her deeper into the awaiting depths. Having the pucker opening back up, it was consuming further along the neck. Having the shoulders being the next to slip inside, with them already being pushed tightly together. Making it look like she was helping to make it easier on him. With her wings being closed, and her front-hoofs resting by her side, she was making it incredibly easy to engulf her whole alive. "Heh, I guess you really want to be my crap huh~. I suppose you really are needier than I thought~!" Toying around with her submissive nature, he continued to eagerly drag in more of her body into the awaiting bowels. More than eager to reduce that cute form of hers, into a giant pile of crap for him to dispose of later.

.

Perhaps they were a bit too eager, with the transformation process already underway! Having been too eager to break away at her body, Cobalt would have been able to feel the walls constantly kneading down upon her figure. Helping to squish and work a special type of fluid into her fur, with it already kick-starting the digestion process. With her chest and half of her forelegs already pushed past the puckered-entrance, her body would have been slowly changing to an awful shade of brown. Even getting to the parts of her that was still outside of the rear end,

it was starting to change. With it taking effect mainly around her hoofs at first, it would have been reducing them into chunks of crap. With any pressure being enough to have it be falling apart. Cobalt would find this out herself, as she struggled against the puckered hole. Trying to at least make it pleasurable for her predator, it had her entire body lightly being shaken around. With her upper-half hitting against the nearby lining. Evoking a pleased cry from the zebragriff, as he pulled in the rest of her front hooves past the puckered entrance. Having them be tucked away against the slimy confines, while bits of the fur would come falling off of the Pegasus once the bowels clenched down against her. Smearing the crap onto the rest of her non-transforming fur, and making a mess of her body. As for the lower-half of her body, it felt like the process would have been churning away at a much faster pace than her frontal-half. Whether it be because she was already surrounded in crap, but she could already feel chunks, and huge pieces of her leg, to already be transformed into the hybrid's hot manure. Adding along to the rest of the filth that was already surrounding her, and having the diaper now containing traces of two unlucky souls that were transformed by the zebragriff's ass~

.

With a bit more clenching, it wouldn't have taken long till Cairbre would be dragging the Pegasus' stomach into the awaiting pucker! Sealing it away within the hot and slimy confines of the anal passageway, with him huffing out from the wonderful sensation. "Hehe, already got most of you tucked away inside of me, snack~ How are ya liking being turned into zebragriff shit~? It's certainly a fate that you were bound for~" With the next part of being the girl's diaper, this might have proved to be a bit of an issue for the hybrid. Already having stretched his ass enough as it is, trying to take in the diaper might be too hard to accomplish. Instead, he opted to squeezing down near the edge of the diaper. Getting mostly around Cobalt's hips, as he could feel her body's texture becoming creamier upon the touch. "hehe, oh this is already so delightful! Just having a good majority of you tucked away in there, but I do think that I don't want your lower-half. I'm sure you'll be better off without them inside of my ass. Why not let them join the pony I just digested~? Surely, he'd love your company, as you're both two piles of crap, going to be filling my diaper~." Clenching down as hard as he could, the blue Pegasus instinctively moaned as her body was being quickly transformed into zebragriff dung. Already feeling as her lower-half was becoming number by the second, she tried her best to wiggle around from the blissful sensation! Already growing aroused once again from being converted, she tried her best to rub her front hoof against her needy lips. However, she was blocked by the diaper. Unable to satisfy her own growing sexual desires, with the pucker only helping to seal it away from her body! Though there was something telling her she wouldn't have to worry about it for much longer...

.

With the constant squeezing that could have been felt from all around her, and the transformation process taking its toll, her body would have been the first to break. With her hindlegs being transformed completely into clumps of hybrid manure, it had her waist starting to be breaking apart in pieces. Adding onto the diaper she had been wearing, the clumps of her body would be slipping its way into the diaper. Adding onto the massive pile that was already in there, but also

having the diaper starting to slip off of her body. Unable to keep a firm grasp upon her softening waist, it would have slipped off of the Pegasus! Plopping down onto the ground with a dull squish, while the rest of her body was being eagerly clenched down upon by the hybrid's bowels. Eagerly engulfing the remains of her back-half, with her rear being the next to slip past the puckered hole. Having the back entrance stretch open for just a bit longer to accept the remaining bits of her body, before quickly shutting itself shut shortly afterwards. Sealing her fate away as being Cairbre's next load he was still trying to transform. "Aaah, there we go~! I got most of you inside of my ass, so I can at least digest what remains of you into my crap. Then you'll be dumped into a fresh diaper, where I can add it to the countless amount of others that are around me. Nothing more than a quick fuck, and an easy snack for my ass~" Being pulled further into the hot and slimy confines of the anal bowels, Cobalt was pulled further away from the pucker. Able to feel herself being twisted around within the bowels, as they carelessly pushed her throughout the intestinal track. Treating her like the shitty food that she was born to be~.

.

With the rest of her having been tucked away within the hot and slimy interior of the anal passageway, she knew her time was limited until the next time she'll reform. With her hoofs already having pieces of it been churned to crap away, she knew it would only be a few minutes max before she was completely transformed inside of the bowels. Not wasting any time, she was certainly not going to be leaving herself aroused right before her shitty demise! Huffing out heavily to herself, as she pushed her hoof down towards the awaiting crap. With her body growing numb, she worked her way over towards her hips. Having them be turned mostly into shit, it did make it easier for her to reach her womanhood! With one hoof hitting around at the top of her cunt, it had the other pushing its way into the vaginal regions. Not caring in the slightest she was spreading crap inside of herself, she was bound to transform into it soon enough! Forcefully grinding down against her vaginal walls, it had them instinctively clamping down on her hoof. Taking a chunk out of it, and pushing it against the surrounding walls. Moaning out in the sheer ecstasy of the moment, Cobalt could tell she wasn't going to be lasting much longer. Constantly rubbing against the surrounding walls, as she felt her heart beating a mile a minute. Nether regions being soaked once again, as she could just about feel it! Needing just a bit more to finally push her over the edge for the second time, she lightly bucked herself into the surrounding walls. Smearing it with the crappy remains of her body, but too busy focusing on her cunt to care. Panting with each passing second, as she pushes her body to its limits! Determined to get in one last blissful orgasm, before succumbing to her fate!

.

With a bit more playing around with herself, it wasn't long afterwards till she'd reach her climax! Letting out a neigh of sheer ecstasy, before letting her orgasm rush its way out of her body! Far smaller than the one she just recently blew, the femmy juices rushed their way out of the vaginal passageway. Taking with it, bits of scat that came off of her body. Helping to carry it out onto the nearby anal walls, and giving Cobalt the ability to enjoy one last orgasm. With it quickly dying down a few moments later, it had her body limp within the surrounding intestinal walls. Being able to witness as her body was being transformed into the filthy scat, her ultimate

destiny of becoming this hybrid's bowel movement. "Hehe, well go ahead and enjoy yourself in there~" I think I'm going to enjoy shitting you out at a later time. I already got a portion of you out into this diaper, so I think I'll leave the rest of you in there. For now at least~" Teasing of a long stay within the bowels, it was certainly something the Pegasus was looking forward to. Of course, she didn't have the ability to control when she reforms, but she could only hope that it would take a while to come back! Wanting to cherish the wonderful sensation of being a rear snack for the zebragriff. With her eyes finally coming to rest, she did use what remained of her hoofs to stroke around at her chest. Able to feel it already starting to give in, and crumble underneath her touch. Having the process already be much further than she could have anticipated, Cobalt would draw her final breath within the intestines. Having it be filled with the solid musky aroma of her own remains. Passing out shortly afterwards, and having the intestines finish what the shitty transformation~

.

Feeling at what he could only assume was the leftover remains starting to bite the dust, Cairbre happily sighed to himself. "Another easy meal for the day. Heh, I wonder how many other delicious morsels I can shove up my ass~" Having the diaper still being right beside him, it looked like it was another one to be added to the pile he already had around him. Standing back up onto all fours, he'd carefully go to closing the diaper to the best of his ability. Having a bit of a struggle at first due to the bloated state of the diaper, but he was able to close it after a while. "Heh, how does it feel to be one of the countless amount of meals I've had this week? I'm sure you're honored to be a part of me~" He happily cooed out, with him soon grasping a hold of the diaper with his maw. Carrying it around within his grasp, he'd throw it off towards the others! Letting it land amongst the pile of diapers, and no longer being of importance to him. He was free to do whatever he wanted to do now! Whether he just calls it a night and heads out early, or perhaps he feasts on one more delicious morsel, it was entirely up in the air. Regardless of what it was, he was sighing happily to himself. Going to grasp a hold of another fresh diaper from the pile he bought at the store, he was happily grumbling to himself. "I'm sure this diaper will look great on me when I go to the rave later! I'm sure it'll even be perfect for dumping you into once I feel ready to release you~" Talking to his latest meal, he was unaware if they could hear him or not. Knowing each pony tends to be a different with each one he disposes of; he was getting ready to put on the diaper. Only to be stopped short once a sudden cloud of smoke would have appeared in front of him! Looking like it was some kind of smoke bomb, it would evaporate into the air shortly afterwards, revealing a familiar blue Pegasus standing in front of him. Looking like she had never gone near his rear end!

.

"Huh, you're back earlier than anticipated!" Cairbre mentioned, before backing away a bit in shock! Having not anticipated such an early arrival, he had let his guard down a bit too soon. "H-How did you reform so quickly? I thought those were supposed to take a while!" All too curious about how fast she was able to reform, though it certainly was seen as a bit rude on his behalf. He was just shocked to see they were back so soon! Yet he wasn't the only one sharing that kind of mindset, as she was quite surprised herself! Having been expecting to be staying inside of the

ass for much longer, she was slightly disappointed that she was back too! “W-Well I don’t know! I wasn’t expecting to b-be back so soon...! I wanted to experience being shat out before I was reformed!” Looking down upon herself, she made sure that she was completely whole like she thought she was. With it looking like she was back to her normal self, it was a bit disappointing for her. Though she certainly didn’t want to leaving so soon, nor did she possibly want to be leaving the zebra-griff any time soon. Though it did leave them to be seemingly at a loss of words for what to possibly do together. With Cairbre rubbing at the back of his head. Feeling a bit awkward, as he didn’t exactly plan for this. “Hmm... well this is a bit awkward. I’m not feeling ready to shit out your remains, so if you’re here for that, I can’t help with that at the moment. I don’t know how long it takes for you to reform again, so I can’t exactly just eat you again...” Being left in a bit of thinking, he was trying his best to think of something to do with the Pegasus! Something that could help kill some time, or have her be somewhere where she wasn’t going to be an issue for him.

.

Thankfully, an idea would come to mind! One that could solve both of their problems, and still have them be around for when he wanted to dispose of her remains. “Oh, I got something! Perhaps I can just eat you alive with my cock, and turn you into my next batch of urine? That way I can empty you out into my next diaper, and carry you around whenever I travel!” Offering a solution that could work, it was already having Cairbre’s cock starting to grow into a semi-erect state. Hanging around at half-mast, with the idea of shoving the Pegasus into his cock as being something quite pleasurable for him! Already shivering at the thought of his cock being penetrated, he did look up to the girl. Offering a friendly grin to her, before trying to show off his semi-hard shaft to her. “What do you think~? Want to become my filthy urine~? Or did you possibly have something else in mind~?” While certainly having interest to go along with what he had in mind, he certainly wouldn’t mind possibly getting to enjoy the delights of some other method of keeping the Pegasus around. However, it would look like she was into the idea of filling his bladder! With cheeks burning a heavy crimson-red, Cobalt gave her nod of approval. “I suppose that could be f-fun... I-I guess feel free to eat me w-whenver you’re ready!” Being willing to do it right now, it didn’t take long for the blue Pegasus to be lying down in front of the hybrid. Leaning her head over towards the cock tip, and brushing her snout against the hot flesh. Giggling to herself, as she watched the urethra already opening up in anticipation. Already eager to be consuming its latest meal down the shaft. Though instead of taking an average trip down into the zebra-griff’s sack, she’ll get the pleasure of filling his bladder full of urine!

.

“Heh, well I do have somewhere to go, so I do think I’ll be tucking you away right now. Hope you enjoy the taste of piss, because I’m going to enjoy converting your body into it~!” Not wasting much time, Cairbre lifted his front talons in the air. Resting them directly on top of Cobalt’s rear end, before eagerly thrusting into their face! Having the urethra suddenly stretching itself out, before it went to engulfing at her face with a noisy *SLURREELCH!* Replacing her vision of the cock walls, to the slimy interior walls of the dick! Being able to watch in awe as the environment was skin-tight for her. Granting very little room to move around, with the cock

walls hungrily tugging more of her head inside. With another thrust being able to seal the deal, her entire head would be pushed into the cock tip! Evoking a pleased murmuring from the hybrid, as he tried his best to pull the Pegasus further into his cock. “A-Augh... T-This is incredibly pleasurable! Have to a-avoid climaxing while you’re tucked away in there!” Huffing his distress to his soon-to-be bladder filler, it didn’t take long for his cock to be entering a fully-erect state. Managing to take in a bit of the Pegasus’ neck, he tightened his grasp upon her rear end. Eliciting a sudden ‘*Yelp!*’ from Cobalt, as she went into a light squirming session from her ass being dug into by the hybrid’s claws. Only helping to further stimulate his cock, and bring forth a series of loud moans and cries from the hybrid. “Y-You’re not making this e-easy on me!” Complaining out loud for her to hear, it was clear he wasn’t able to keep a hold of the situation. Then again being a new dom, he wasn’t used to being in control in most of this kind of stuff! However, trying to stay determined on engulfing his meal, he thrust into the Pegasus’ body! Eagerly dragging more of her body into the awaiting cock.

.

Breaking into a series of quick and heavy thrusts, Cobalt’s body would be sliding inside with a surprising amount of ease! Whether it be from being used to this kind of stuff, or perhaps it was the rushing pre that was majorly helping, she was already finding herself a good chunk of the way down the equine shaft. Getting her front-hooves pinned to her sides again, she’d let the hybrid continue to buck her into the awaiting cock. Pushing her along, with the cock walls helping to tug upon her each time he pulled back for another thrust. Reaching the base of the shaft, she would have been able to feel the entrance to the balls just below her. Having to only push down to possibly slip inside, the surrounding walls would have other ideas on where to put her. With them continuing to push her along through the cramped and tight interior. Pushed in an upwards angle, with her looking to be going somewhere much further within the body. Though she wouldn’t have to guess what it was, for the familiar acidic stench to already be picked up just ahead. Being that of the zebragriff’s piss, it was clear that he wasn’t exactly empty in the bladder. Going to be finding that out first-hand, she was pushed up towards the bladder’s sphincter. Blocked from being able to enter the slimy organ, it would eventually open after a few moments. Willingly accepting her head, with her being greeted to a face-full of urine! Trying to originally rush its way out of the bladder, only to be stopped by her sinking further into the bladder. Forced to close her eyes, as she was being pushed along into the awaiting organ. Though from what she could already feel so far, it was going to be an incredibly tight fit to get her entire body tucked away inside. Though perhaps that means she’ll get to enjoy bathing in some urine, before she gets digested into the bitter fluids~

.

Taking a small bit longer, the rest of Cobalt’s body would be slipping along within the awaiting cock! Having her hind hoofs being the last bit to slip into the urethra, it would seal itself away in a loud ***SLURRRP!*** Tucking her away for good inside of the slimy rod, with her upper-half already being tucked away within the bladder. Being forced to curl into a fetal position to the best of her ability, it had her sitting inside of a pool of piss. With it only going up to around half of her body so far, there was still plenty more for her to be sinking into the bladder. Wiggling her

lower-half to the best of her ability, it did help to pull more of her lower-half inside, but it was at the cost of evoking a few moans from the zebragriff. Stimulating their shaft as she tried to bring her hooves inside. Halting any movement within the cock, as the walls tightly enveloped her hindquarters in the cock flesh. Refusing to let it slip inside too quickly, and having the hybrid accidentally pushing them back on out. “D-Don’t move around in there t-too much! It’s too s-sensitive in there for you to be moving around!” Whining out in a blissful pain, Cairbre was trying to avoid hitting another climax so quickly! Having him struggling to avoid his climax, it didn’t help she was moving around inside of the shaft! Thankfully, with a few deep breaths, he would have been able to calm himself down after a few seconds. Letting the cock walls finally relax its grasp upon Cobalt, before continuing to push her along into the awaiting bladder. Letting her body be temporarily submerged within the nearby urine, as she was fully tucked away within the sensitive organ. Appearing out as one massive bulge to the outside world. One that would be shrinking down in size once she’s been churned into piss~

.

With the rest of his meal being tucked away inside of the bladder, Cairbre was panting out in sweet relief that his shaft was no longer being stimulated by the Pegasus. Collapsing onto his back, he was stroking around upon his bulging body. Cooining out in delight to have them tucked away in there. “Huff... I don’t usually do this kind of eating... B-But it certainly was quite pleasurable!” Huffing out his words, it had his body already starting to digest away at its latest meal. With them being in the bladder this time around, it would have had the nearby urine starting to sink into Cobalt’s body. Helping to already start breaking her body down, and helping to fill the urine up. While the process was certainly fast by itself, the Pegasus would have been able to watch as her hoofs would be the first to go. Letting them seemingly come oozing off of her body, the urine was eagerly eating away at her body. Transforming little bits of her body into the musky fluids, and helping to fill the bladder! Given that there was not that much piss lingering inside of the fleshy prison, and a good portion of her body was still outside of the urine, it did at least offer some time to relax within the bladder. Not having to worry about much, other than enjoying herself inside of this strange environment! “I-I’ll be making sure to piss you out, as quickly as I can... I’m g-going to a rave after this, and I c-certainly can’t walk around with this massive bulge on my body...” He did give a few pokes around upon the stretched flesh. Lightly stroking his talons upon his fur, as he listened to the bladder grumbling around with its current meal. Sloshing the urine around inside, as it tried its best to digest away at its meal. Though a bit of movement would certainly help speed things along for the two of them.

.

“H-Hey um, can you move around in there! It’ll help digest you faster in there. Not to mention it’ll help pleasure me while I’m reducing you into my piss~” Regaining his dominance after an embarrassing slipup, he worked harder into kneading down against the bulge. Treating them as nothing than a meal that was meant to be peed into a diaper, he had a devious grin upon his face. Trying to act just like how Rain acts, he’d slowly flip himself onto his back! Having his head be resting on the grass below, while his lower half was lying down directly upon the bulge. His hoofs being able to touch the ground, whilst his crotch’s weight was added to the bladder.

Tightening the interior inside, which would have been perfect timing all things considered. With moving around having had an affect on Cobalt, she had been pushed along against the bladder walls! Forced to feel the gravity change around her, with the urine now working on her upper-half! Eagerly eating away at the hoofs, it was further assisted once Cairbre pushed down on the bulge. Making the environment more compact, it would ensure the digestion would go by a bit faster than before. “Heh... Come on, I know you want to squirm around in there~ Just think of the giant pool of urine you’ll become by the time I’m done with you! It’ll be all tucked away inside of my bladder, before I pee you out into some diaper. Certainly going to be making it a heavy-yellow color, with your urine stains sinking directly into the fabric~” Leaning his head down to the bulge, he’d lightly headbutt into it. Causing the bladder to shake and clench just a tiny bit more than it was originally. Which in turn, made the environment even more compact, and having the pool of fluids rising higher than before!

.

As for the Pegasus herself, it wasn’t much of a surprise to find herself instinctively becoming submissive under the zebragriff’s words. With them being too much for her little heart to handle, it had her wiggling around within the bladder! Helping to work the urine deeper into her fur, while her paws tried their best to knead against the surrounding walls. With her hoofs already having been mostly eaten away at this point, it was more like grinding the stubs against the surrounding flesh. Struggling harder with each passing moment, as more of her body was already being broken down into the nearby urine. She wouldn’t even have time to jack herself off again, as the fluids mercilessly went for her behind too. Churning it into a heavy amount of urine, and causing the pool to increase in height. With there already not being much room, the increase in fluids led to more of her body being submerged with the piss. Able to have been keeping her head up above the yellow tide, it wasn’t going to be lasting for much longer! “Hehe, that’s it~ Keep squirming around in there! I can already feel your bulge already shrinking down in size. Oh, I can’t wait till I’m relieving myself of your musky remains~” With more of her body being submerged within the urine, the pool was starting to rise above her head! Taking away what little remained of their oxygen, and going to be submerging them within the hot fluids in just a moment! Thankfully for Cobalt’s sake, she was able to push herself towards the roof of the mouth! Taking in one last breath of stale musky air, before she was submerged within the acidic piss. Her entire body being exposed to the piss, as it continued to work tirelessly in converting her into urine. Caring not for the struggling Pegasus, as she pushed back against the bladder walls. Offering one final fight within the fleshy organ, before she was reduced to nothing more than the hybrid’s liquid waste~

.

Being able to feel the last bit of the Pegasus’ life within his bladder, Cairbre happily bucked into the bulge as it struggled. Going to be satisfying his own sexual desires, he was forcefully digging his cock into the bulge. Helping to further break away at the Pegasus’ body, as the cock was being stimulated from all the movement from inside. “That’s it, go ahead and struggle around while you’re in there. It’ll help me jack off after you’ve been such a tease to my cock! Such a naughty little diaper filler~” Bucking his way into the bulge, his shaft was being easily

stimulated by the constant squirming. Using her very last moments of life, and helping to get him to reach his blissful peak! With pre already oozing out of the tip, the member was throbbing in anticipation for another climax. Having already blown a load not too long ago, his arousal was ready to blow another if he could! Even though his body was far from ready to blow another load so soon! With there barely being any spunk lingering within the sack, there wasn't much spunk being produced at the moment. Meaning his load would be far smaller than his previous climax, but that certainly wasn't going to be stopping him. Having already been close by the Pegasus going down his shaft, he wasn't going to let this pleasuring sensation go to waste! Continuously pushing against the squirming bulge, he was breaking out into a series of heavy pants. Trying to keep up on the aggressive bucking, and reach another high from the digesting prey. "C-Come on~! Just a bit more! K-Keep squirming! C-Continue being my bladder filler, and pleasure your predator~!"

With only a few more thrusts, Cairbre would have been finally reaching his peak! Unleashing a noisy caw from his lips, the hybrid's load would come rushing out! Drastically much smaller in size than before, with only a few ropes being shot out of the tip. Splattering itself against his bulging fur, smearing the creamy fluids against his body. Being at just the perfect time, with Cobalt finally seizing all movement. Looking to have been passing out within the pool of urine, it had the remaining bits of her to be sloshing around within the bladder. Still working to fully transform the Pegasus into urine, it did give Cairbre at least something to fuck. With his ecstasy swiftly slipping out of him, he'd collapse onto his side. Sloshing his bladder around as he moved, with the fleshy organ noisily growling from the sudden movement! Not having anticipated the movement, the bulge was tossed to the side. Resting sideways now, with it looking to have been drastically shrinking down in size. Growing more compact around its remaining meal, as it was giving off a more liquid-like state. Almost like it was a water balloon that was filled with water, except this was far from any ordinary balloon. Groaning out as he felt a wave of exhaustion hitting his body, he'd spend the next few minutes lying around the nearby grass. Blinking constantly as he fights the urge to sleep. Still having so much left to do tonight, especially when it came down to being at the rave later! Letting the minutes simply pass him by, while his talons idly stroked around upon his bladder. Being able to feel it shrinking down in size with each passing moment, knowing it won't be long till they were fully transformed into his next bathroom break~

Taking only a few minutes longer, the bulge would slowly stop shrinking in size. Having drastically reduced itself in size, it was still leaving a dent within his body. Being stuffed to the brim with piss, it wasn't much of a surprise to say he needed to relieve himself. Slowly picking himself up, he'd wander over towards the fresh bunch of diapers. Grasping at the one resting on the top of the pile, he'd let an audible sigh slip past his lips. "Heh... well you've been quite the enjoyable little snack, but I think it's time I dispose of you in my diaper now~. We all know how you've been looking forward to this, to be disposed of inside of that cushioned fabric~ Heh, well I better not keep that waiting for much longer. I can already feel myself desperately desiring to

pee~” Talking to himself, he was unaware on if the Pegasus was still there or not. Regardless on where they were, Cairbre was wasting no time in putting the diaper on himself. Already getting his hoofs through the leg openings, he was putting the diaper up against his behind! Stopping just short from touching his wings, the diaper would be firmly snugged to his waist. Ensuring that it wouldn’t be coming off on accident, and certainly going to be holding the dump he’ll be taking. With his sheathe having been tucked away in the diaper, it did have his shaft to be pushed against the cushioning fabric. In a halfway-erect state, he wasn’t able to put it away just yet. Not that it was going to be stopping him from emptying his bladder into the crinkling folds. Positioning it to a spot where he felt comfortable, he’d declare to his bloated bladder. “Time for you to leave my body again. Hope you enjoy being my diaper-filling. I’m sure you’ll be making some lovely urine stains on the fabric for me to show off~”

.

Before long, the zebragriff would finally be relieving the building pressure in his bladder. Letting it be surging out of his cock, the golden fluids were instantly drenching around at the cushioned fabric. Changing it’s white texture, to match that of the golden fluids. With an audible sigh to tie it all off, Cairbre was blissfully emptying his bladder out. One of his talons were stroking against his distended flesh. Feeling it was starting to shrink down in size, it was going to be a small bit till it would be completely back to normal. With there being a few gallons of urine still lingering inside, it was certain most of the diaper was going to be a filthy-yellow by the time he finishes. There was probably going to be a small pool of urine too to be honest! With the fabric being super absorbent, he doubt that it would be able to absorb all the musky urine! “Heh... look at all that piss your body has been turned into. Isn’t it quite the lovely sight? To be transformed into my liquid waste, before being disposed of in a diaper~ I’m sure that alone probably gets you aroused, though you don’t have the body to enjoy it anymore~” Bringing his talon towards the soiled diaper, he’d stroke around against the yellow stains lingering upon the fabric. Admiring how hot it was underneath his touch, with the sound of soft crinkling could have been heard from within. A delightful sound to say the least, one he loved listening to while he was relieving himself from his latest meal. “Heh, well this is certainly one of the most pleasurable experiences I’ve had with you my tasty treat~ Just letting you come crashing down into the diaper, where you’ll be stuck there till you reform later. And to think, I have yet to dispose of your remains inside of my ass still~!”

.

Emptying himself for what would feel like minutes on end, the bladder would eventually run itself dry. Ridding himself of what was every little droplet of piss, with him letting out a relaxing sigh. “There we go! All dumped into my diaper! Just as how it was meant to be~” Cooing in delight, the diaper wasn’t able to fully absorb the urine. With most of it looking to have been absorbed into the plush padding, there was still a small pool of it at the bottom of the diaper. Being just large enough that his cock tip was resting inside of the hot fluids, but not big enough that it would be having his rear being drenched in the hot fluids. “Heh, and I’m not disposing of your crap right now, so I do hope you find yourself being comfortable in there, because I’m not done using you just yet~” As for outside of the diaper, a tattoo would have magically appeared

upon the diaper! Having it be of nobody else, other than the Pegasus herself! Appearing at the front of the yellow mess, her entire body would have been visible on the diaper. Shrunken down to be about the size of a hoof. Looking to be sitting down upon her ass, she had a heavy-blush upon her face. Not only because of the taunting words, but it was also from the wonderful sensation she was currently undergoing. Being added onto the diaper, she could have felt everything that was happening inside of her. Whether it be the pool of piss lingering inside, or the equine cock that was being grinded against the soaked-fabric, she was able to feel it all within her! A sensation that was quite strange, yet all so delightful for her to experience! Walking around upon the soaked-cushioning, she tried her best to look up towards the top of the diaper. “W-When are you going to empty my r-remains out? A-Anytime soon...~?”

Cairbre didn't know when he would be disposing of the Pegasus' shittier remains, but it'll be some time in the future. Perhaps even during the rave if he was feeling up to it, but that was up in the air for right now. Walking around a bit with his new diaper companion, he did go to mentioning. “Well I wouldn't say so~ I'm going to be heading out to a rave, and you're going to be joining me along with it! Perhaps you'll have some fun dancing around and what not, and maybe I'll end up shitting you out by the time the rave is over~” With it already starting to turn into the evening, it would be around that time he should start to head back. With the rave starting in an hour or so, he could be entering the club if he didn't want to miss the action. “Speaking of which, I should probably be going there now!” Turning to face his diaper, he did give it a soft poke. Leading to a small ‘Eeep!’ to slip past Cobalt's lips. The second-dimensional Pegasus, looking to have stumbling onto her gut upon the diaper being touched. It was quite adorable to the zebragriff, though he would most likely be ignoring the diaper for majority of the night. “So hope you enjoy yourself in your new home, I'll make sure to shake my hips around to get that urine to splash around for you. I'm sure you'll like that~” Turning to face the area in front of him, Cairbre would begin to walk them off into the forest nearby! Gently shaking his hips around, and having the pool of piss slosh around the used-diaper. Forcing Cobalt to feel her body being drenched even further in the liquid waste, while it was still slowly being absorbed into the diaper. While certainly this wasn't intended when she came to this diaper-filled area, she certainly couldn't deny the future did look quite enticing~

Taking what would have been a while to get to their destination, it would have been night by the time Cairbre reached their destination. A music venue that was hosting a rave for a local artist. Having been already playing at full-blast by the time he got to the venue, he was able to easily get past security. With only a few guards looking to have been giving him a strange look upon seeing the diaper, it didn't stop the zebragriff from entering the place. Having stopped by his house before going to venue, he had brought with him his lights to go with! Which just happened to be just two lights attached to a single line, he had two on his back. Peacefully walking into the party area, he was able to find the back-area not to be too compact for him. Up ahead, the sound of music could have been heard blasting from the speakers. Bouncing around at the surrounding walls, as he was unable to hear anyone speaking over the loud music. Strobe

lights were going all over the place. Flashing its light around within the small environment, but that didn't stop everyone from already dancing around to the music. Whether it be the shyest of ponies, or perhaps the manliest of gryphons, everyone could have been seen dancing around to the music. Looking to be having a good time, and enjoying themselves through the night. "Heh, well looks like it's time for us to have our fun now!" Cairbre did try to shout out to his diaper, but it was already far too loud for either of them to hear each other. Barely being able to even hear himself as he spoke, he'd shrug it off for now. Opting to not worry about his diapered companion, and enjoy the rave~

.

Grasping a hold of the two lights on his back, Cairbre held them within one of his talons. Making it easier for him to have a hold of it, while he went to carefully standing upon his hind legs! Able to at least stand on it to the best of his ability, with him being a decent enough distance from the rest of the crowd. Ensuring that he'd be safe without possibly hitting anyone, he put the other set of lights in other claws. Soon starting to shake his hands around, he would have been causing the light to start creating a bit of a blur around him! Having them dancing along to the beat of the music, with him doing some tricks with the light. Tossing them around within the area around him, and genuinely having some fun with his performance! Even catching some attention from the ponies, nearby, as they were watching from not too far away. Applauding him on his crazy dance moves, with the lights being shaken around with each move the zebra-griff had made. Even Cobalt would have been having some fun herself! Having been only a two-dimensional tattoo on the diaper, it didn't stop her from at least having some fun herself! Dancing around on the diaper's yellow surface, while giving the occasional shudder upon feeling the urine being splashed around inside of the diaper. Through the trip there, it did at least get slightly absorbed into the diaper, but it wasn't enough to stop the piss from being sloshed around inside. Bringing out an occasional groan from the strange sensation, but thankfully it was easily muffled out by the blaring beat all around them. With her continuing to dance along to the beat, and Cairbre dancing with his lights, it seemed like there wasn't anything that could stop the two from having a grand time at the rave!

.

On and on the two would go. Continuing on to dance their way through the night, and having a wonderful time! With the music showing no signs of stopping, and there feeling like there was no end to their wonderful night! And while certainly there was no end to the night, it wouldn't have been long till a familiar sensation would have been overcoming Cairbre's body. One that was desiring to relieve himself from his latest meal. "Heh... Suppose it's that time, isn't it~? Time for the rest of you to finally be adding onto the diaper, and staining it a lovely brown coloring. I think that'll be perfect for you~" Finishing up his little dance he had with the lights, he'd set them around his neck. Getting back onto all fours, and having him relax after dancing around for who knows how long. Bringing an end to his attention, with his onlookers to be returning back to the main show up ahead. Not showing any interest in him, as they went back to watching. As for Cobalt herself, she wouldn't have been able to hear the hybrid's words. With the music still being way too loud for anything to possibly be heard amongst the noise, she was

confused at first to see they had been quickly coming to a stop. Wandering amongst the diaper's surface, she was trying to see if she was able to possibly see if he was looking at anything in particular. However, it didn't look like there was anyone he was talking to. "W-What are you going to do next...?" She curiously asked, only to be given an answer she couldn't have been prepared for. With the zebragriff's body suddenly tensing up in anticipation. Cock growing into a partially erect state, with it rubbing against the wet fabric. Though the real indication for what was about to happen, was the smell of shit that was closing in from the hybrid's rear...

Trying to possibly react to this, Cobalt moved and tried to possibly play around with herself! Though due to her strange situation, she wasn't able to do so. Nor could she possibly reform, with the process having a cooldown of another few hours till she can do that. Instead, she got to experience the logs of crap being forced directly into her awaiting diaper! Pushing past the puckered hole, and having it come crashing down upon the piss-covered fabric. Staining the yellow insides, with the familiar brown coloring she had seen before. With the crap coming out in clumps, the shit would be pushing itself out in clumps. Containing bits of the Pegasus, there were a few pieces of bone that lingered within the shit. Having it come pouring out with each second, Cobalt was able to feel it being dumped into her body. Making her feel stuffed silly, as the filthy remains started to have the diaper beginning to sag from the additional weight. Lowering it closer towards the ground, while Cairbre was enjoying the sensation of relieving his bowels. Letting it all come working out of his ass, and directly into the diaper for it to rest. 'Aaah, just where you belong my dirty slut~ It was your destiny to be ending up in there, and here you are! I can't wait to get you off of me, and toss you amongst the other diapers I have back at the forest. You'll fit in as just another snack that had the pleasure of becoming my crap~!' Attempting to dominate the Pegasus in the middle of the rave, proved not to be as effective as he would hope. With everything he was saying, having fallen upon deafened ears. Unable to even hear himself as he spoke, he had to rely on the sensation of dumping his latest bowel movement into the Pegasus. Though it was already enough to have the girl be moaning out in sweet ecstasy Savoring the sensation of her shitty remains being dumped inside of the diaper~

Having most of the pony having been digested inside of his ass, it would have taken about a minute or two to be disposing of Cobalt's remains. Having them be easily filling in the diaper, while she remained in a pure bliss from the wonderful sensation. Tongue hanging out in the open, basking in the wonderful ecstasy of her body being stuffed. However, all good things would have come to an end, with the load of crap sadly being brought to an end. After having stained the used-diaper a filthy shade of brown, it had left it to be completely stuffed full of crap. Having it be heavily sagging from all the additional weight that had been added on top of it, the icing on the cake would have been the Pegasus' skull. Being the last to be slipping out of Cairbre's bowels, it would have been heavily smeared in zebragriff crap. With both eye sockets looking crap coming out of each of them, the skeletal remains would have been lightly cracked as it was pushed through the pucker. Looking like it was cracking under the pressure of the

hybrid's strength, it would be plopped down onto the top of the mess. Marking the end of his disposal, and having the bowels be cleaned of any crap that might be lingering inside. "There we go! That should be the rest of you completely out of my body. Heh, both liquid and solid versions of your body, now filling my diaper. How does it feel to be in there~? To be making a mess of my insides with your sheer presence in there~ It looks quite beautiful~" Having been finishing around what looked to be a short intermission, the music would have stopped for just a few moments. Making it easier for Cobalt to hear him, along with some other ponies that had managed to recognize the zebragriff's voice...

.

From out of the crowd nearby, a female pony would have appeared between two other ponies. Looking to have a furious look on her face, she pointed a hoof over towards Cairbre in an accusing manner. "Hey I know this guy! He's the guy who shat me into a diaper earlier!" Her voice being loud and clear, getting the attention of everyone in the surrounding area, even Cairbre himself as he looked over towards the pony in confusion! Taking a moment to try and remember who she was, it didn't take long for him to recognize it was one of his previous meals he had a few days ago. Having her been originally second guessing being shat into a diaper like that one unlucky pony did earlier, she looked to be mad at the hybrid. Staring at him with a furious look on her face. Before he could possibly defend himself against the accusations, a cyan-colored unicorn would have been stepping into sight a few moments later. Seemingly just a few feet away from the female, they looked to have been equally as mad at the zebragriff. Not too pleased to see him at the rave. "So do I too! This guy stuffed me into a diaper this morning! Even though I told him to stop, he still did it!" Accusing him of eating them, it wasn't much of a surprise to see a few more voices starting to rise up in numbers. Starting off small with one after the other, it would have been growing in size with each passing voice. Having the music be unfortunately on some kind of intermission, everyone was able to hear the voices of the mad and frustrated. It didn't help that Cairbre took great pleasure in eating whoever he could, but now it looked like it was going to be biting him in the ass! With there being a crowd starting to surround him, it looked like he wasn't able to possibly run away from his actions. He may have put each one of them into a diaper at one point, but it looks like he might be having the roles switched around on him instead~.

.

Attempting to try and back himself away from the mess he was in, Cairbre ran quickly away from the crowd as best as he could! Hoping to possibly escape, only to be running head-first into a nearby gryphon! Being a foot-taller, and far more muscular than he was, he was easily knocked down onto his ass. Fallen upon his diapered-bottom, and having his ass be pushing the skull directly into the nearby crap. Evoking a pleased moan from Cobalt, but her pleasure was the least of his concerns at the moment. Having been slightly dazed from ramming into the gryphon, it had the crowd suddenly lunging directly at his body! Two ponies looking to grabbing a hold of his forepaws, and forcefully him to lay on his back! Pinned down temporarily, as he tried his best to struggle against their grasp upon his body. Audibly grunting, and giving his all to possibly get the two to release their grasp upon his body. "Hey l-let me go already! I don't want to be dealing

with you all! I just w-wanted to have some fun!” Possibly trying to explain why he was there; it didn’t seem to matter much to the group. With one of the unicorns offering a loud growl towards him, a group of unicorns would have been pulling down upon his diaper! Tugging down upon the soiled fabric, it would have come off incredibly easily thanks to multiple folks pulling down upon against the fabric. Taking off the only clothing article he possibly had, and separating the Pegasus from Cairbre’s body! Unable to possibly do anything, other than watching on as she was carelessly tossed off to the side of the room. Managing to hit the wall, before crashing down onto what looked to be a bunch of other used diapers that looked to be cluttering the corners of the room. Completely ignored and discarded by the group, and being left to watch on in shock at what was happening to the hybrid off in the distance. Moving around all across the diaper’s surface, but not having a single soul trying to help her out. After all, the main attraction was the zebra-griff at the moment. Who would care about some ex-Pegasus currently trapped inside of a messy diaper?

.

As for Cairbre himself, he had the pleasure of being suddenly grasped a hold of by the surrounding crowd! Carried amongst the crowd’s back, it kind of looked like he was crowd surfing for a moment. Except this was one incredibly angry crowd, and he was going off to what looked to be a corner of the room. Close to where Cobalt was currently resting amongst the diaper pile, the zebra-griff would have been soon able to see what looked to be quite the strange contraption off in the corner. Revealing what looked to be some kind of wire that connected itself to the room, it would have been reaching just a few feet above the ground. Dangling in the air, it looked to be restraints for someone to be tied up to. Specifically him being tied to the restraints, with the crowd bringing him directly towards the hanging contraption. “C-Can’t we just t-talk about this? I just want to have s-some fun at the r-rave! Not be s-stuck in that thing!” Bargaining with the crowd, it didn’t seem to work in the slightest. Only angering the group that was carrying him, he was able to hear what sounded like a male voice being heard from below him. Looking to be carrying him towards his destination, with them going to shout out. “Oh shut up! None of us wanted to be dumped into a diaper, yet you did it anyways! You’re just getting what you deserve!” Being brought directly towards the restraints, a few unicorns would have been using their magic on the steel restraints. Clamping down around his neck, legs, and tail, it had him completely exposed to the crowd around him. Revealing at his back entrance to them, along with the two orbs that lingered just below. Stuck dangling in the air, Cairbre thought the worst was already over. However, he was about to find out that the group had something more planned in mind, than having him be stuck in the tight restraints...

.

Hoping to break out of these restraints before anything worse could happen, the zebra-griff would have been looking around his restraints. Trying to see if there was some easy way out of his current mess, but there was nothing from what he could see on a quick glance. What he did see however, was multiple diapers being lifted into the air. Each looking to have already been used by a variety of folks from the party, they would have been carrying what looked to be some kind of magic aura to them. Helping to guide them through the air, and directly towards the

zebragriff's body. "W-Wait no! You don't w-want to do this! W-Whatever you're doing, please stop!" Pleading in hopes that they would possibly stop what they were doing, it was merely wasted energy to try and convince them to stop. Too dead-set to make him pay for what he's done, it wasn't long till what looked to be five diapers were pushed directly towards him. With one of them going directly to the top of his head, he tried his best to look away from the piss-filled diaper. Spared of any shit within the diaper, he'd try to keep himself from looking straight at the mess. However, he'd find that he was unable to move his head in the slightest! Having it being controlled by some unicorn around him, he was forced to stare at the purple aura surrounding his head. Holding him completely still, just in time for the diaper to be placed directly upon his face. Snout sinking into the yellow-fabric, able to feel at the wet spots that lingered on the mess. Looking to have just recently been used. The piss-covered fabric would have been hot upon his snout. Smearing the musky fluids against his face, forcing him to breathe in the horrific odor that lingered within the stench. With it only made worse with the diaper being wrapped against the back of his head. Ensuring he wouldn't be able to pull his head out of the messy fabric.

.

Whining out from how horrific this would have felt upon his mouth, it was only made worse once he felt the other four diapers to have been appearing upon his feet. Having one diaper go for each leg, he'd sink his claws and hoofs into the messy confines. Coming to find there was crap inside of each one of them, it would have been cold to the touch. Having him sinking directly into the filthy remains, he'd be able to feel a few folks tightening the diaper around his legs. Having it be just below the restraints, he wasn't able to fight back against the group. Other than moving his legs around in a desperate measure to possibly get the diapers off of him, but they were refusing him from even moving his legs! Forced to be dangling in the air just a few feet off of the ground, completely helpless as the diapers would have been firmly locked onto each leg. For the finishing touches upon his shitty situation, he would have been able to feel what he could only assume was a butt plug being pushed against his back entrance. Threatening to slip inside at any moment, he'd whine from the dreadfully pleasurable sensation! Clenching down upon his hole to possibly block any access, it didn't stop the plug from pushing itself directly against the hole. Forcefully jamming it against the tightened hole, as the plug was crammed into the awaiting depths! Spreading the hole apart enough for the plug to be tucked away inside, it had him being blocked off. Preventing him from possibly pushing anything out of his ass, it certainly felt like this was the cruelest position he could ever be put into! That is, until he would have felt one more diaper from out of nowhere. Having it be placed against his limp member, before having it be tied to the sheathe. Bounding him to the dirty diapers, and being left there as something for everyone to laugh at. Making fun of the zebragriff that was well known for filling diapers, now getting what they thoroughly deserved~

.

With Cairbre stuck in this dreadful position, it would have been just in time for the music to be coming back! With it pounding away at the nearby speakers, it wasn't long afterwards for the rest of the crowd to be returning back to partying. Having the time of their lives, all except for

the unfortunate zebragriff. Trapped within the restraints of this bondage equipment, he tried his best to squirm within the air. Even trying to flap his wings, but it didn't seem to do much to aid in his current situation. Not even able to grasp the bottom of the diaper with his talons, there was too much crap for him to deal with. Thus, he had to experience the rave while being tied up. Gagged by the musky aroma of someone's piss, as he could do nothing to possibly change his fate. The same could have been said for Cobalt, who would have been still watching from close by. Having been there to witness the hybrid get tied up and gagged, she couldn't help but find the sight to be quite arousing to her! A sight that she couldn't resist watching, as she was still stuck within the pile of diapers. Unable to break free herself, nor could she possibly reform after having already done it so soon. Instead, she was constantly traveling around the diaper. Breathing in the musky aroma of shit surrounding her, but still having some fun herself. With the music coming back, she was able to dance around upon the diaper. Going along with the music, and at least making the best out of her current situation. With nobody bothering to toy around with either of them, the two were able to continue on with the rave. Listening on to the delightful music that bounced off the walls, and admiring the wonderful light show in front of them.

.

With the rave continuing on for what looked to be an hour, the two were able to enjoy the music and lights that came from the specular event. Admiring the wonderful work that came from the show, though it wouldn't have been long till a pack of unicorns would have been coming directly towards Cairbre. Looking to be the same ones that had originally tied him up, they looked to have another plan for the zebragriff. With all of their horns looking to have some kind of glow to them, it was clear they were using their magic for something, but for what? Trying to look around the darkened room in search for what it might be, it didn't take long for his eyes to have been caught what he was looking at. Flying high amongst the crowd, would have been a giant diaper, bigger than even himself! But it looked like it was already drenched in piss already. Horrified to what they might plan on doing with him and that giant diaper, he was stuck observing them getting closer towards his body. With them soon going to spread out around him, the zebragriff was able to witness the diaper being lowered just below him. Still gaping open as it revealed the yellow piss-stains that were absorbed into the fabric. Looking to be his fate of going inside, he couldn't resist looking at it with rosy-cheeks. He wanted to ask what they were going to do, but he would have been answered by the restraints around his body releasing around his body. Going off one by one, as it had him dangling just above the soiled diaper. Dangling with his hindlegs being the only thing keeping him in the air, he was close to touching the disgusting diaper. Struggling one last time to possibly sway himself away from the fabric, the restraints on his hindlegs would finally give way. Sending him plummeting into the diaper down below...

.

Crashing face-first against the squishy confines of the diaper, it had his body starting to undergo some kind of transformation after being touched the piss-covered interior. However, he wouldn't be able to notice too well with the diaper starting to be tightened around his body! Trapping him within the plush and crinkly confines, as the unicorns went to work sealing him away! Unable to

fight back with diapers still on his feet, he did try to push them off of his body. However, the giant diaper would have been constantly sloshing and shaking him around within its tight interior. Constantly pushing him against the surrounding walls, and having him unable to think straight as his sense of direction was being shaken around! Left at the mercy of the diaper, as he was being pushed around the place. It was also around that time, where he would have discovered what the strange sensation was. Being that of the transformation process he was going through, it looked like the diaper had some kind of magical ability! While he certainly was able to transform others with just his body alone, he'd come to find his body to be transforming into what looked to be clumps of crap and piss being mixed together. Helping to dirty the diaper even further than it was before, and having a small pool of piss starting to form around his body. While he may have been the one to be putting others into diapers, it looked like the roles have been reversed! Though instead of being shat out into a diaper, it looked like he was going to be freshly converted directly from the diaper itself!

.

Managing to push his forepaws up to his mouth, he was trying to possibly work the diaper off of his mouth. Only to feel himself being forcefully tossed! Going weightless for just a few moments, just in time to come crashing down upon the wall nearby. Knocking the wind out of him, as he was pushed onto the pile of diapers. Incredibly close to Cobalt who was just a few feet away from the giant diaper, but wasn't able to do much to help the zebragriff. Though she certainly watched as the diaper sagged on top of the pile. Looking like the crown jewel on top of the mess, it was certainly a sight to behold for anyone outside of the diaper to be admiring. The same couldn't have been said for Cairbre, as he was still tucked away within the interior of the diaper. Feeling himself being transformed at a much faster pace, there wasn't much he could do at the moment. Light squirms only helped to further the transformation process, with his front talons being completely broken away at this point. Reduced into nothing more than shit and piss, it would have been filling the small diaper the two talons were originally set in. Helping to avoid making a mess of the much larger diaper, but there was still plenty of him that was still bound to be transformed into the bodily products. Having nobody to possibly bother him while he was stuck as a diaper, it looked like the group of unicorns were leaving him alone for the rest of the night. Fitting him to a shitty demise within the giant diaper, there was nothing he could do to change it.

.

Which is why he had chosen to embrace his musky outcome! Accepting his fate, he went to relaxing around within the diaper. Watching on as his hind hoofs were reduced into the filthy crap. Finally ridding him of the four diapers that clung onto his body, there was still two more that were clinging onto him. With one being the shaft, while the other was on his face, time was running out. With his legs beginning continuing on with the transformation process, he went to grinding down against the piss-covered fabric. Trying to get himself off one last time, he was using his body to go into each thrust. Cramming it as far into the nearby walls as best as he could, with the cock quickly bringing itself to a fully-erect state. Getting aroused enough to have it be hard, it was throbbing against the nearby crap. Smearing the filth against the member, as he

used the crap as a fleshlight. Moaning out into the other diaper, as his shaft was being stimulated by the surrounding filth. Helping to inch him along, all whilst he was being surrounded in a small pool of urine. With it starting to rise the further along the transformation went, it was acting as a constant reminder for the zebra-griff. “A-Augh~!” He cried from the wonderful sensation, with his body instinctively going into a series of heavy thrusts. Pushing his all with each buck he made, and having his cock digging deeper into the crap. Smearing it in the leftover remains of someone’s previous load, and having him get closer towards the edge. He can already taste it just being moments away from his grasp. Needing to just push a little harder, he was pushing himself to his limits. Trying as hard as he could, wanting one last blissful moment, before he spent the rest of the night as diaper filler!

.

With a few more thrusts, it would have been enough for Cairbre to finally be reaching his third and final climax. Moaning out in the sweet ecstasy of the moment, he’d climax into the smaller diaper. Filling it with his thick creamy spunk, with the cock aggressively pushing itself into the filth. Trying to ride off the wave of ecstasy, while the rest of his body would have been already mostly transformed at this point. With his body waiting till that climactic peak, he was able to feel his body starting to fall apart with the load being emptied out. Draining him of the baby batter, while the bigger diaper was being stuffed with clumps of shit. Lingering within the pool of piss that was up to the zebra-griff’s body, he was able to rest inside of it while he basked in the wonderful afterglow of the moment. Having the load being only a few spurts of cum, it wasn’t long afterwards for his body to grow limp within the diaper. Finally submitting to the slimy confines, and bringing his head to rest against the squishy cushioning. Heavily breathing as he was feeling severely light-headed. Growing dizzy and heavily disorientated with the conversion having him barely clinging onto the waking world. With the music outside starting to become nothing more than a noisy blur to him at this point, it wasn’t long much longer till he’d finally pass out from within the giant diaper. Losing consciousness, and leaving the rest of his body to finish being processed within the diaper. Helping to stain it a filthy yellowish-brown coloring, telling of a zebra-griff that got a taste of his own medicine~

.

As for Cobalt, she had been watching on as the diaper was finishing up with its latest victim. Watching in awe as her companion suffered a similar fate as herself, she blushed at the sight of a tattoo appearing upon the diaper. Containing no other than the zebra-griff, he looked to be stuck as a part of the diaper. Unable to reform just yet, but looking to be dancing around to the music. Almost as if unbothered by what had happened to him, the rave was still going on around them. Having not cared what happened to the two of them, it would have been continuously playing its music. Having the audience dance and enjoy the wonderful lightshow, with some of the patrons even daring to use some of the used diapers. Either fucking into the messy cushioning, or using it as a toy for their own personal enjoyment, they didn’t take Cobalt or Cairbre. Though they would have their chance later on. The night was still long, and the rave was far from ending any time soon. With the party still continuing on, it looked like it was going to be a messy night at the rave. Leaving two lucky individuals to be enjoying the rave in a pair of used diapers~
