

Liquid fun

This wasn't the predicament that Morning Mist expected himself in. He was pinned to the floor by the living latex, which was liquidy, slick and pliable. It held onto his stiffened cock, keeping the blue pegasus pinned to the floor in a squirming, sticky mess. He moaned, trying to roll over, but more of the latex rolled over his back and kept him held down. He hadn't meant to do this, really he hadn't! He had been studying with a unicorn friend, and they had taught him a magic incantation that even non-magical ponies could use. He had tried it on a bucket of his liquid latex and...well...here he was. Suffering.

Well, maybe not suffering. Not yet at least.

He rolled in the living latex, feeling the cool but slick liquid on him. It clung to him like tightened glue. It pushed his ass up into the air, forcing his tail up and exposing his puckered hole. His front hooves slipped in the liquid latex, causing him to fall to the floor and get stuck in the glue. It wrapped around his neck, loosely holding him down and keeping his ass up.

"Oh god..."

He whimpered, and soon was penetrated by the living thing. It formed a thick tentacle that pressed against his hole. He groaned out as it began to fuck him, and not too gently either. It plowed into his ass, fucking him roughly into the floor. He moaned out, squealing in unheard of pleasure as his cock throbbed within the latex coating it had given him. It was like fucking into a warm, sticky hole as he was plowed eagerly by the tentacle behind him. He moaned out loud, though it was quickly stifled by more latex filling his mouth.

He didn't know how long the fucking went on, or the latex in his maw, crushing his tongue and choking him. But he loved it, the way his cock throbbed and came within the latex. His body shuddered as he came.

"Mmmfhh...mmonnwww"

Okay, I'm done now! He tried to say...but the latex kept going. It continued on, plowing into him. It wouldn't stop no matter what he did. He was stuck within it, cumming again, and again, and again.

It was going to be a long night.
