

Oops

Narrkerotics had found himself in trouble again. His sister sat in front of him, a wet diaper sagging between her thighs. Her feathers were ruffled, and she was smirking down at her trapped brother.

“Really? Cumming before me?”

She said, and he responded with a whimper.

“Sorry...”

“Oh, you’re not sorry yet, but you’ll be sorry.”

She grinned down at him, her tail flicking across the bright pink designs on her diaper. It sagged just below her sex, which was dripping with cum and juices. Her brother’s wings had been bound to his sides with a large belt, and she was quickly fitting his back legs to a spreader bar, and his front hooves into shackles which were screwed into the floor. He was forced to bend forward, his ass pressed into the air, tail curled against his puckered hole.

“Ah-ah-ah. Don’t hide that pretty ass from me.”

She purred, tucking his tail to the side and looking at his hole. She leaned forward and licked from the bottom of his balls up to his hole, worming her tongue into him and tongue fucking his ass. He let out a loud moan, laying his head to the ground, his bottom trembling as the pleasure overtook him. Just as he was getting into it, she fell back and stopped, leaving him covered and filled with saliva. He couldn’t see what was going on, but he suddenly felt something cold and hard press into his ass.

“Ah!”

He cried out, and his sister giggled.

“Come on now, just take it like I took you.”

She pushed the big, purple butt plug into his tight hole. He squirmed and whimpered as his ass was spread open by the thick toy. It slipped into him easily, pressing hard against his prostate. He let out a low moan, gasping as she gave it a little shove.

“Now, we don’t want you leaking all over the floor, do we?”

She said, using her hoof to tease his cock, which was already starting to pre. She pulled a bright pink diaper from the bedside table, and began to slip it over his hips. Soon he was being hugged by the soft, but tight padding.

“Naar...”

“Shush! I’m not done with you yet!”

She tittered, leaving her brother to wiggle in his restraints, but every movement pressed the plug deeper into his greedy hole. Soon she returned with a thick dildo gag, giving him a wink as she settled down in front of him. His cock was throbbing in the diaper, he was already ready to bust again. She could see the heavy, stiff bulge under his belly.

“Look at you, you cum so easily!”

The gag was shoved into his mouth before he could respond, and he felt the rubber press down into his throat, choking him until he could only make muffled cries.

“Next time wait for me.”

Naarkesex said with a wink, placing her hand on a small pump that came from his gag. She pressed it, and slowly the dildo in his maw expanded, leaving him to let out a choking sound.

“Now, I wonder how long we leave you like this..”
